SKILLS

Ruby	JavaScript (ES6)	React	HTML5	SQL	Python
Ruby on Rails	jQuery	Redux	CSS3	Git	pandas

PROJECTS

Jumpstarter - *Full-stack single-page web app inspired by Kickstarter*

Technologies Used: (Ruby, Rails, jBuilder) (React, Redux, jQuery)   Live / GitHub

- Created nested ActiveRecord associations to fetch database data without N+1 queries
- Implemented frontend JavaScript validations on form elements to reduce server requests
- Designed dynamic forms that utilize React Router to render different React components

Sokoban - *Browser block-pushing puzzle game built with ES6 and Easel.js*

Technologies Used: JavaScript (ES6), Easel.js, HTML5 Canvas, jQuery   Live / GitHub

- Utilized arrow keys to move player around 2D grid that permits and prohibits motion
- Updated dynamic player and game statistics on sidebar with jQuery
- Added 30 game levels, each of which instantiates a custom instance of main game class

Catalyst - *JavaScript utility library for common operations with arrays, objects, and strings*

Technologies Used: JavaScript (ES6)   GitHub

- Implemented 40+ methods for interacting with and manipulating JavaScript data types
- Added built-in documentation system with descriptions and use cases for each function

WORK EXPERIENCE

Indeed */ Data Analyst*   **SEPT 2015 - FEB 2017**

- Created 10+ JavaScript programs (event registration form, learning management system, employee feedback survey) within the Google apps ecosystem (Gmail, Sheets, Forms)

EDUCATION

App Academy
New York, NY

2017

Intensive full-stack web development bootcamp with 3% acceptance rate. Curriculum includes Rails, JavaScript, SQL, and React / Redux.

New York University
Stern School of Business

2009 - 2013

Bachelor of Science (B.S) in Business Economics and Marketing
